25/11/2025

We hereby declare that all products produced by DBP Plastics NV in Antwerp are in regulation with the following legistation:

Good manufacturing practice(GMP) **EC 2023/2006**
This applies to all stages of manufacturing processing and distribution of materials and articles up to but excluding the production of starting substances

The Regulation **EC 1935/2004**
All materials and articles shall be manufactured in compliance with GMP so that under normal of foreseeable conditions of use, they do not transfer their constituents to food in quantities with could endanger human health of bring about an unacceptable change in the composition of the food or bring about a deterioration in the organoleptic characteristics thereof.
The labelling, advertising and presentation of materials of articles will not mislead the consumers.

The regulation **EU 10/2011** (amendement 17) on plastics and **2022/1616** Recycled plastics
The migration tests are done under standardized conditions defined in EU 10/2011 and are in compliance with the Eu regulation. The regulation defines food simulants to be used depending on the actual food types.

DBP Plastics is **BRC GS packaging materials** certified with Achieved grade A valid until August 2025.

Our customers will receive a detailed DOC/item once the exact composition of the item had been created in our software system and once the purchase order has been confirmed.
